

6 SAO® Benefits When Returning Back To Work After A Pandemic

It is important to take preventive measure to control or avoid the spread of infection. With these measures in mind, you can ensure the health of your employees while maintaining smooth business operations. Here are the top **Tersano SAO® benefits** for protecting your employees and workspace from spreading the infection:

Simplicity for Staff

SAO is an all-in-one solution, saving time and eliminating the risk of applying the wrong product. The Tersano SAO system provides standardized training to staff.

Effectiveness

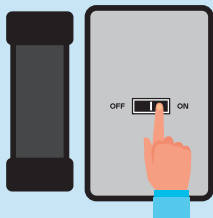

By using SAO, the quality of clean is elevated! Now staff are both killing germs and bacteria while they clean. When used as directed, SAO® kills >99.99% of MHV-3, the globally approved testing surrogate for SARS-Cov-2*.

Residue-Free

SAO is residue-free. Dirt and grime attraction is eliminated and surfaces stay cleaner longer. Potential for slip and falls are dramatically reduced.

On-Site-Generation

Tersano systems eliminate the need to purchase, transport, distribute, store, and restock multiple cleaning products. No worry if there is a disruption in supply chain. SAO is always available.

Environmentally Responsible

When using SAO, carbon footprint is dramatically reduced. Less packaging and emissions translates to less in our landfills and to the planet. SAO reverts back to water and oxygen, and can be disposed down the drain without negatively impacting our waterways.

Safer Working Environment

SAO is non-toxic, reducing exposure to harsh chemicals for staff, clients & visitors. SAO does not leave toxic fumes and protects people with allergies or sensitivities. SDS is 0-0-0.
